CSS3
Material-UI
Redux
Recoil
Context API
GraphQL
Git GitHub and GitLab
RESTful APIs
SWR

EDUCATION

Master of Computer Application

University of Calicut
2018-2021

Bachelor of Computer Application

University of Calicut
2015-2018

CERTIFICATIONS

React.js Internship

Certification InIntellipaat 2015-2018

PROFILE

Highly skilled Front-End Developer with over 3+ years of experience building high-performance, scalable web applications using JavaScript, React.js, Next.js, and related technologies. Expertise in integrating APIs, optimizing performance, and delivering seamless, user-friendly interfaces. Committed to staying ahead of industry trends and driving innovation through modern web development practices.

WORK EXPERIENCE

Software Developer

Webandcrafts

March 2022 - Present

- Delivered 5+ successful projects for clients such as Middlesex University, Jersey Group, Amritha Hospitals, Web and Crafts (official website), and Logos Learning. Developed and deployed high-performance web applications and websites using modern technologies and best practices.
- Led the development of responsive, dynamic user interfaces with React.js and Next.js, providing optimized, user-friendly experiences across devices.
- Implemented state management solutions like Redux and Context API, enhancing data flow predictability and improving overall application efficiency.
- Mentored junior developers on React.js best practices, fostering team growth and improving code quality across projects.
- Optimized performance by applying techniques such as code splitting, lazy loading, and caching, resulting in faster load times and improved application performance.

Front-end Developer

Plugend Techlabs

October 2021 - March 2022

- Completed an intensive React.js certification course during training, equipping me with the latest best practices and techniques.
- Collaborated effectively with a team of developers to ensure project success.
